UX · SMALL BUSINESS WEBSITES

7 UX fixes that get a small business more *bookings.*

No redesign needed. Each fix shown on an original concept site.

SWIPE →

FIX 01 · CONCEPT

One clear call to action, *repeated.*

One button, one verb, on every screen. Here it follows you down the page.

FIX 02 · CONCEPT

Hours and location *above the fold.*

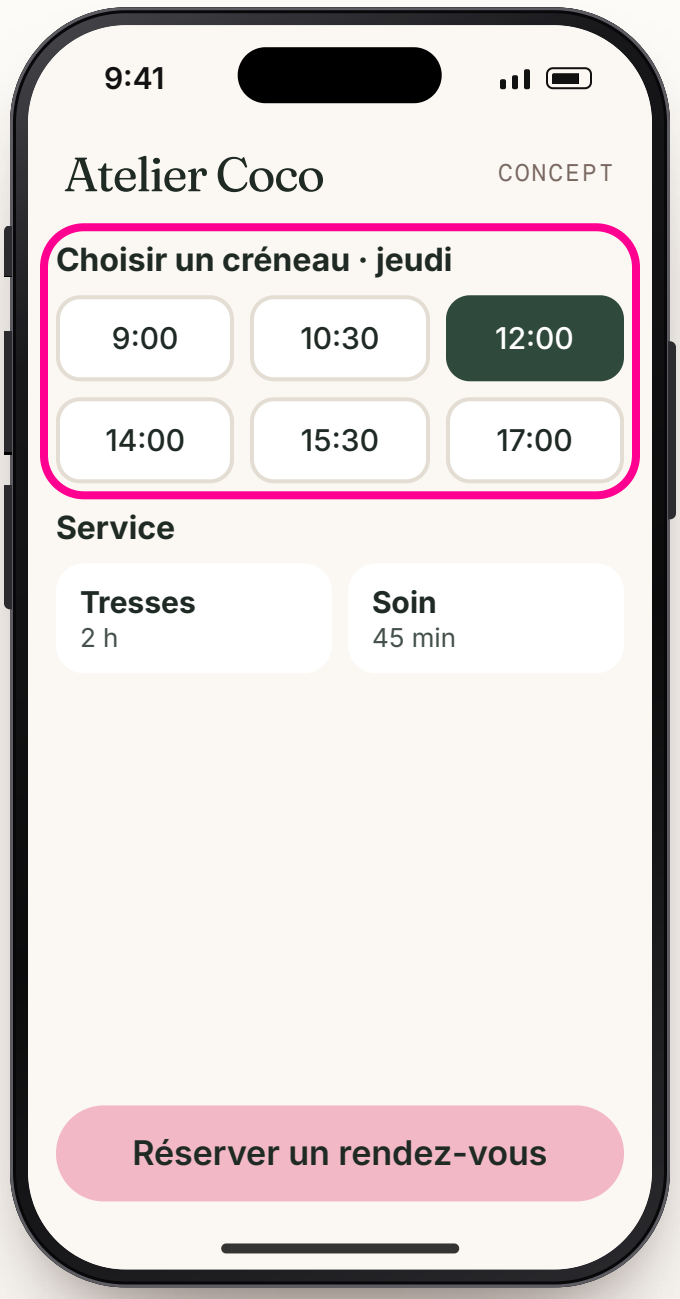

The two things people check first, before they scroll.

FIX 03 · CONCEPT

Online booking, not *“call us”.*

Let people pick a time at 23:00, when they actually decide.

FIX 04 · CONCEPT

Fast on a *phone.*

That is where your clients are. Compress images, self-host fonts, cut scripts you do not need.

FIX 05 · CONCEPT

Real photos, not *stock.*

Your space, your work, your team. People book the place they can picture.

FIX 06 · CONCEPT

Reviews where people *decide.*

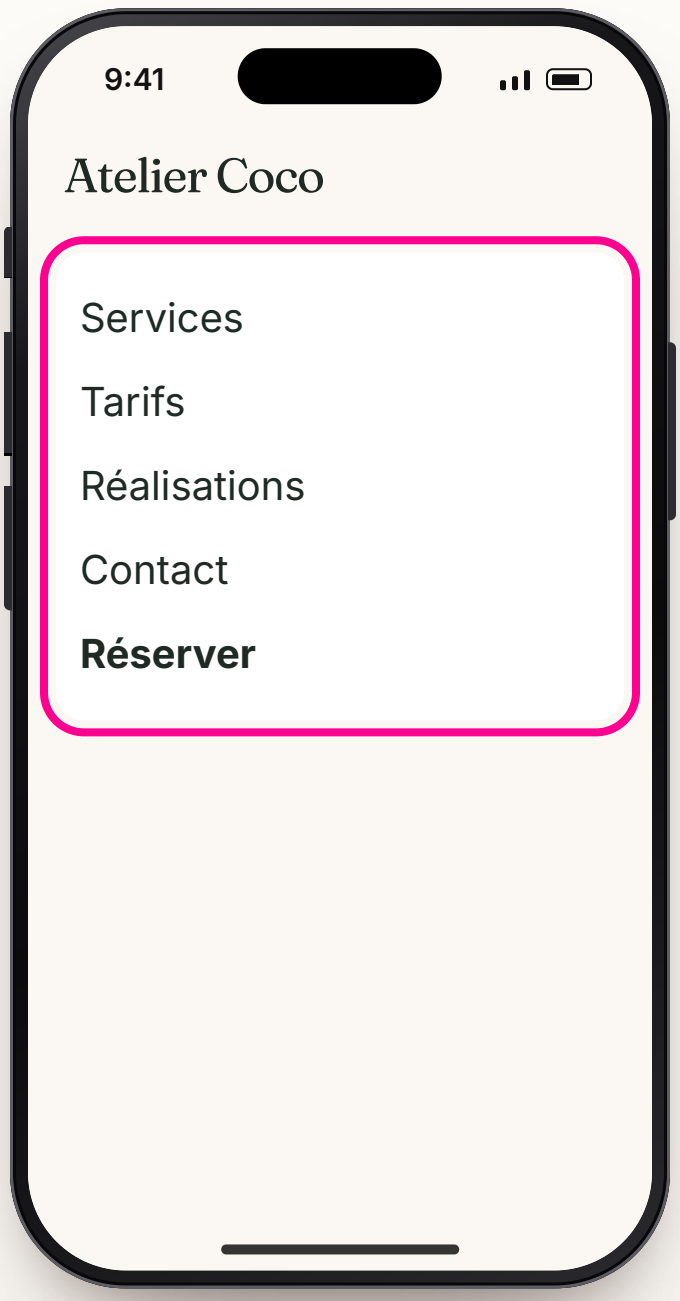

Next to the booking button, not on a page nobody opens.

FIX 07 · CONCEPT

A simple menu: *five links.*

Not fifteen. If it does not help someone book, it goes in the footer.

Follow Kee for design, tech and *building in public.*
